

Got a flyer in my mailbox yesterday. About the proposed Walmart distribution center, that they don't want in town. I like the idea. It will bring in JOBS!!! It will bring in need tax dollars and help lower taxes for home owners!!! The impact of all the trucks would be minimal. Near the Mass pike entrance. Most of the traffic would be at night. Would have little impact on traffic problems. The traffic problems here in town are mostly at rush hours. Early morning and 4 to 6 pm. The town needs the tax money this would generate. My taxes went up around 8% this year. At this rate I will need to sell in a few years. I'm retired. My income is not keeping up with the taxes. Never mind everything else!
